Dear Cyrille,

As part of the scientific committee for the upcoming **Nature Conference in Paris**, I am contacting researchers active in artificial intelligence in medicine to share the **call for abstracts**, in case it is of interest to you or your group.

The PITOR Institute, together with Nature Portfolio, is organizing the first European Nature Conference dedicated to AI in Medicine, from **8 to 10 September 2026** at the Grand Amphithéâtre de la Sorbonne, under the High Patronage of the President of the French Republic. The program includes 28 international experts, among them two Nobel laureates, and editors from several Nature journals (*Nature*, *Nature Medicine*, *Nature Reviews Nephrology*, *Nature Health*).

Abstracts for oral or poster presentations are reviewed by the editorial committee:

Submission deadline is June 19, 2026

For more information, visit the webpage of the conference: [Visit the webpage](#)

We would be delighted to welcome you to Paris for this exceptional event.

Best Regards,

Guillaume, on behalf of Nature & PITOR

Guillaume Mercy, PhD

Director, Research Program Management & Partnerships
