Re: Note to the Reader

Dear Reader,

The present document includes the **official transcripts for my MSc in Informatics (Digital Sciences) from University of Paris – Cité**. **The GPA is 4.0/4.0 (17.309/20) as indicated.**

As part of the **biomedical data science concentration of my MSc**, I completed a **biomedical specialization sub-track** in partnership with the DUSBM (Diplôme Universitaire de Spécialisation Biomédicale) program at **Université Paris-Saclay**. This sub-track **consisted of five modules from the DUSBM program**. Completion of these modules does not confer the full DUSBM certification (which requires at least ten modules), and the **grades were combined and incorporated into my second-year Master's transcript as a single course: "Advanced Digital Sciences 4"**.

The document is organized as follows:

- Page 2: Official France–Canada grade conversion system issued by McGill University for interpretation of the transcripts.
- Pages 3–4: Official transcripts of my degree.
- Page 5: An official certificate issued by the DUSBM Program Director, Prof. Nathalie Lassau, detailing the grades obtained for each module, is also provided. The final weighted grade for "Advanced Digital Sciences 4" is 4.0/4.0 (18/20), as indicated.
- Pages 6-8: As the official transcripts and the DUSBM module completion certificate are issued in French only, an English translation is provided for readers.

Sincerely,

Cyrille E. Mvomo, PhD (c)

Objet: RE: Complementary Course NEUR 610 and Grade Conversion France-Quebec
Date: mardi 14 mai 2024 à 10:07:40 heure d'été de l'Est nord-américain
De: KPE Student Affairs
À: Cyrille Mvomo, Lindsay Duncan, Dr.
Cc: Caroline Paquette, Dr.
Pièces jointes: image001.jpg

Hi Cyrille,

I've added Dr. Lindsay Duncan to the email, so she can approve NEUR 610 as a complementary course.
@Lindsay Duncan, Dr., the course is NEUR 610: Functional Neuroanatomy (3 credits):
https://www.mcgill.ca/study/2024-2025/courses/neur-610

As for your grade conversion, here's how you would go about calculating on McGill's 4.0 scale:

Alpha Grade	20-point Scale	Descriptive	Grade Point
A	16 - 20	Très Bien (Outstanding)	4.0
A-	14 - 15.9	Bien (Very Good)	3.7
B+	13 - 13.9	Assez Bien (Good)	3.3
B	12 - 12.9	Assez Bien (Good)	3.0
C	10 - 11.9	Passable (Pass)	2.0
F	0 - 9.9	Ajourné (Fail)	0

If your overall score is 16 or higher, then according to McGill, your GPA is **4.0**
If your overall score is 15.99, then according to McGill, your GPA is **3.7**
If your overall score is 14.01, then according to McGill, your GPA is **3.7**
If your overall score is 13.99, then according to McGill, your GPA **is 3.3**

I hope that helps!

Best regards,

Sonia

Sonia Masi, MA

RELEVE DE NOTES ET RESULTATS

Session 1

MVOMO Cyrille
N° Etudiant : 71606600 INE : 2509023417S

ATTESTATION DE PRESENCE

Je soussignée, Professeur Nathalie LASSAU, directrice de l'IFSBM, certifie que Cyrille MVOMO à bien assisté aux modules ci-dessous :

- IA en santé : 17/20
- Innovations technologies : 15/20
- Pratique de l'imagerie médicale : 14/20
- Bio design et Bio ingeenering 18/20
- Objets connectés en santé : 17/20
-

En foi de quoi, nous délivrons la présente attestation qui ne VALIDE PAS LE DU

STATEMENT OF GRADES AND RESULTS – Session 1

Name: Cyrille MVOMO

Student ID: 71606600

Date of Birth: December 7, 1998

INE: 2509023417S

Place of Birth: Sèvres (092)

Program: M2 AIRE – Digital Sciences

Semester 3 – M1 AIRE Digital

Average: 17.646/20 – Passed (High Honours) – 30 credits

- Creation of an interdisciplinary research project – Passed – 4 credits
- Critical analysis of research articles – 17/20 – Passed – 4 credits
- Entrepreneurship – 14/20 – Passed – 4 credits
- Internship 2 – 18.6/20 – Passed – 18 credits

Semester 4 – M2 AIRE Digital

Average: 16.971/20 – Passed (High Honours) – 30 credits – Rank: 3/22

- Seminars in Digital Sciences 2 – Passed – 2 credits
- Advanced Digital Sciences 4 – 18/20 – Passed – 2 credits
- Research project – 19/20 – Passed – 4 credits
- Research project – 17/20 – Passed – 4 credits
- Internship 3 – 16.4/20 – Passed – 18 credits

Overall Result:

Final Grade: 17.309/20 – Passed with High Honours – 120 credits

CERTIFICATE OF ATTENDANCE

I, the undersigned, Professor Nathalie LASSAU, Director of IFSBM, certify that Cyrille MVOMO has attended the following modules:

- Artificial Intelligence in Healthcare: 17/20
- Technological Innovations: 15/20
- Medical Imaging Practice: 14/20
- Biodesign and Bioengineering: 18/20
- Connected Health Devices: 17/20

This certificate is issued for the purpose of attesting attendance and DOES NOT CONFER A DEGREE.

Issued in Villejuif on October 2, 2023

Professor Nathalie LASSAU
